

Infinit Credit Services provides customized leasing and finance programs for everything from equipment, software and training to installation and ongoing maintenance. All for one monthly payment.

Hardware & Software Phone Repair & Refurbish Certification Training
Network Management Parts & Maintenance Non-technology Products

Leasing Options

Infinit Credit Services has lease packages for the products and services they provide and can also advise customers about existing lease agreements with other companies. This allows customers to select from several tactical options when purchasing equipment. Infinit offers operating as well as capital lease structures and can combine existing leases, software and services into a single solution.

Custom Financing

The equipment, software and services required to run a business can be complicated and expensive. Infinit helps businesses identify the most efficient and cost effective procurement method possible, then develops customized payment options and leasing programs that are tailored to each unique situation.

Get greater value and a better ROI from your technology.
